News Brief

www.data-collection.com

School days, school days, wonderful back to school days...

(Luckily there is no music with this! 😊)

We have received a few requests for classes on the IBM Data Collection Software and are asking for your help.

First, there have been several different offerings:

- 1. DOS DCE (DOS Data Collection Edition)**
- 2. OS/2 DCC-2 (OS/2 Data Collection & Control) and**
- 3. DC Connect (runs under Windows NT as well as OS/2).**

Which are you using?

Next, we need to know what level of class is needed:

1 Day: Overview and Functionality (What it can do)

**2 Days: Installation, Configuration and Debugging
(How to troubleshoot - Does not have to be a programmer)**

**4 Days: Basic Terminal Programming and Commands
(For people with programming skills)**

What is your requirement?

Thanks for giving us your time...

We hope you find these “News Briefs” informative.
