News Brief

www.data-collection.com

Is Bio-Metrics in your future?

Data Collecting for Answers

Security, buddy-badging, and the like are constant problems that are looking for solutions. Enhancing a current data collection application with some of today's technology is becoming more a reality. Today you can attach proximity readers, barcode readers, magnetic stripe, laser scanners, door openers, printers, and wireless scanners to name a few. But what is next? We think that a thumb-print (Bio-metrics) type reader might be. Please take a moment to email us your ideas or thoughts. sales@data-collection.com We really would like to know!

Is everyone getting the message?

We continue to be found by someone new everyday. **Thanks** to all of you that have mentioned our name to customers, fellow workers, counterparts, and at industrial seminars. Some people are finding us on the Internet, and some of you have even forwarded a copy of the **News Brief** to others! If someone you know should be getting a copy of this **News Brief** – please pass it on, and when you do copy (cc.) us and we will be glad to send them one each week.

Happy Memorial Day !

Please drive safely and buckle up ! Wishing all of you a safe Memorial Day weekend.

Remember: We offer ***Repair Service*** and ***Maintenance Agreements*** for all three families of IBM DCTs - the ELF(7494/7525), 7526 and 7527.

Thanks for your business!

Ron, Jack, Tottie & Mike
